Options	<u>F4</u> , this option meets the "4" opening rule" in recent codes by using full <u>double width footboards</u> and <u>riser boards underneath the seats</u> to close that opening to less than four inches. <u>48AHR</u> , option adds a <u>48" center aisle w/handrail</u> . <u>GN</u> , Goose Neck hitch, this option replaces the telescoping ball/pintle hitch tongue with a folding goose neck system. This makes towing for long distances or with smaller vehicles easier. It also allows for better maneuvering to place the bleachers. Once the bleacher is placed you pull one pin and fold the goose neck arms up to the front on the bleacher to get them out of the way of spectators.												

Both options are needed to comply with IBC 2009 Code. Code requirements and their interpretation, application and variances are determined by local authorities. Applicable codes can vary by local jurisdiction. Speedy Bleacher Corp., Kay Park-Rec Corp., nor any of its' representatives have authority to interpret or apply codes. RE: **RECOMMENDATION FOR DEFERRAL**

ADDRESS: 19151 Avon

NAME: Moonwater Maintenance and Landscaping Corporation

Demolition Ordered: November 16, 2015

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection conducted on January 18, 2019 that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. **This is the 1st deferral request for this property.**

Therefore, we respectfully recommended that the demolition order be deferred for a period of six months subject to the following conditions:

1. **A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.**
2. **BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.**
3. **The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:**
 - **Certificate of Acceptance related to building permits**
 - **Certificate of Approval as a result of a Housing Inspection**
 - **Certificate of Compliance, required for all rental properties**
4. **The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).**
5. **The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.**
6. **Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.**

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

RE: Opposition to Migrant Protection Protocols

On January 28, 2019, the Trump Administration announced a policy, effective immediately, to force asylum seekers to remain in Mexico over the duration of their immigration court proceedings. The backlogged immigration courts will force asylum seekers to fight their case for months or years in Mexico, and the policy contains no clear path to implementation, including how and where immigration proceedings will occur. Nor does the policy take into account the safety of migrants during their time in Mexico. The United States must strike a balance between the application process and the safety of vulnerable migrants who are seeking asylum in the United States.

Please draft a resolution in opposition to the Trump Administration's January 28, 2019 memo entitled "Guidance for Implementing Section 235(b)(2)(C) of the Immigration and Nationality Act and the Migrant Protection Protocols".
